

For Immediate Release

**CONIFEX INC. ANNOUNCES AGREEMENT FOR THE ACQUISITION OF
MACKENZIE, BRITISH COLUMBIA SAWMILLS AND RELATED ASSETS
FROM ABITIBI-CONSOLIDATED COMPANY OF CANADA**

FORT ST. JAMES, British Columbia, March 24, 2010 – Conifex Inc. ("Conifex") today announced that its affiliate has entered into a definitive agreement to acquire (the "Transaction") from Abitibi-Consolidated Company of Canada and an affiliate (the "Vendor") certain of the Vendor's assets situated at or near Mackenzie, British Columbia, including two sawmills and planer mills, as well as the Vendor's timberland operations which include a forestry licence with an annual allowable cut of approximately 932,500 cubic metres.

Upon completion of the Transaction, Conifex and its affiliates, on a combined basis, will own sawmills having an annual lumber production capacity in excess of 600 million board feet on a two-shift basis, all supported by renewable forestry licences with an allowable annual cut of approximately 1.6 million cubic metres.

The Transaction is subject to certain customary conditions, including certain approvals. On March 23, 2010, an order authorizing the Transaction was issued by the Quebec Superior Court pursuant to the *Companies' Creditors Arrangement Act* proceedings to which the Vendor and certain of its affiliates are a party. The Transaction is expected to close in or about the second quarter of 2010.

Ken Shields, the Chief Executive Officer of Conifex, stated: "This acquisition is consistent with our objectives to invest in promising softwood fibre supply regions and to upgrade and operate low-cost lumber converting facilities."

Assets to be Acquired

Pursuant to the Transaction, Conifex's affiliate will acquire two sawmills and planer mills, related lands and other assets. The timberland operations to be acquired by the Purchaser include a forest licence, with approximately 932,500 cubic metres of annual allowable cut, and related logging camps. Conifex intends to consolidate the two Mackenzie sawmills into one expanded and upgraded facility capable of producing high quality lumber on a more cost-effective basis.

In addition, the Conifex Group will also acquire non-operational paper mill assets situated adjacent to one of the sawmills, including the associated power generation assets. Conifex intends to dispose of the paper mill assets but will retain the power generation assets with capacity to produce 13.8 megawatts of electricity.

Conifex Inc.

Conifex is an independent British Columbia company formed for the purpose of investing in the forest industry in the interior region of British Columbia and elsewhere in Canada. Conifex and its affiliates' primary business includes timber harvesting, reforestation, forest management, sawmilling logs into lumber and wood chips, and value added lumber finishing. Conifex's lumber products are sold in the United States, Chinese, Canadian and Japanese markets.

Conifex's current operations comprise one sawmill, situated in Fort St. James, British Columbia, with in excess of 300 million board feet of annual lumber capacity on a two-shift basis, as well as timberland operations with approximately 640,000 cubic metres of annual allowable cut from quality Crown-owned tenures in the north central interior of British Columbia. The sawmill commenced operating on a one-shift basis in March, 2009 and is currently operating approximately 15% above the production targets established at the time of purchase. At this mill, Conifex intends to move to a two-shift operation in the second half of 2010 upon the completion of a capital expenditure program which is currently underway.
