

## CONIFEX TIMBER INC.

NEWS RELEASE: via MARKETWIRE

FOR IMMEDIATE RELEASE

### Conifex To Extend COVID-19 Curtailment

May 1, 2020, Vancouver, BC - Conifex Timber Inc. (TSX: CFF) announced today that, in response to continued weakened global demand for forest products amid sustained uncertainty from the economic impact of the COVID-19 pandemic, it is extending its temporary production curtailment at its Mackenzie, British Columbia sawmill for four weeks to June 1, 2020. The curtailment is not expected to have any adverse consequence on bioenergy operations.

Conifex will continue to closely monitor the evolving market conditions, customer demand and the global COVID-19 response while prioritizing employee health and safety considerations.

### About Conifex Timber Inc.

Conifex and its subsidiaries' primary business currently includes timber harvesting, reforestation, forest management, sawmilling logs into lumber and wood chips, and value added lumber finishing and distribution. Conifex's lumber products are sold in the United States, Chinese, Canadian and Japanese markets. Conifex also produces bioenergy at its power generation facility at Mackenzie, BC.

### Forward-Looking Statements

Certain statements in this news release may constitute "forward-looking statements", including statements about Conifex's future lumber production, the expected timing or duration thereof and the impact, duration and effect of the COVID-19 pandemic on our operations at Mackenzie. Forward-looking statements are statements that address or discuss activities, events or developments that Conifex expects or anticipates may occur in the future. When used in this news release, words such as "estimates", "expects", "plans", "anticipates", "projects", "will", "believes", "intends" "should", "could", "may" and other similar terminology are intended to identify such forward-looking statements. Forward-looking statements reflect the current expectations and beliefs of Conifex's management. Because forward-looking statements involve known and unknown risks, uncertainties and other factors, actual results, performance or achievements of Conifex and its industry may be materially different from those implied by such forward-looking statements. Forward-looking statements involve significant uncertainties, should not be read as a guarantee of future performance or results, and will not necessarily be an accurate indication of whether or not such results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including lumber price volatility, lumber market conditions, the impact, duration and response to the COVID-19 pandemic, log costs, log quality and availability and other risks described in Conifex's 2019 AIF, available on SEDAR at [www.sedar.com](http://www.sedar.com). These risks, as well as others, could cause actual results and events to vary significantly. Accordingly, readers should exercise caution in relying upon forward-looking statements and Conifex undertakes no obligation to publicly revise them to reflect subsequent events or circumstances, except as required by law.
